WORK EXPERIENCE

AB InBev   **Lagos, Nigeria.**

MOBILE DEVELOPER   *Feb 2024 - Present*

- Implemented new coding standards and best practices, resulting in a 20% decrease in bug reports and a 25% increase in codebase maintainability.
- Collaborated with cross-functional teams to identify and address key bottlenecks in code implementations, resulting in a 35% increase in app load time efficiency and a 10% decrease in memory usage, enhancing user satisfaction levels.
- Implemented React Query across all company applications, resulting in a 40% increase in data fetching efficiency, 50% improvement in caching capabilities, and 60% synchronization enhancement for faster load times and improved user experience.
- Coordinated cross-functional efforts among development, design, and testing teams to successfully deliver an MVP product within one month, meeting tight deadlines and ensuring a successful launch.

Statisense   **Lagos, Nigeria.**

FRONTEND DEVELOPER   *Oct 2023 - May 2024*

- Designed and implemented reusable components with strong typings using typescript for type safety.
- Full optimization of web applications by preventing unnecessary re-renders and code-splitting to enhance user experience.
- By working closely with the backend developers, I was able to establish a seamless communication channel and ensured a smooth exchange of data between the frontend and backend systems. This collaborative effort allowed for an efficient and effective integration process, resulting in a user-friendly and reliable system.

Clane   **Lagos, Nigeria.**

FRONTEND DEVELOPER   *Aug 2022 - Dec 2023*

- Worked in an Agile-driven environment to effectively maintain project timelines and utilize available resources.
- Collaborated with Backend Engineers to integrate robust data encryption mechanisms for enhancing the security and privacy of API requests for a client Retail Internet Banking application.
- Developed reusable components and hooks that served as the UI kit for building most of the company's frontend-facing products.
- Collaborated with other engineers to work on the company's back office dashboard, which was responsible for keeping track of transactions performed by customers and user monitoring.

Pine Cargo   **Lagos, Nigeria.**

MOBILE DEVELOPER   *Apr 2021 - Jun 2022*

- Collaborated closely with a team of talented developers, instigating code reviews and actively participating in decision-making processes to ensure top-notch solutions aligned with industry best practices.
- Integrated Google Maps API to enhance the project's functionality and provide users with interactive and location-based features.
- Bumped page load speed of application to about 30% increase of its initial speed via tests from Chrome Lighthouse.

AAERLAW   **Abuja, Nigeria.**

FRONTEND DEVELOPER   *Mar 2020 - May 2021*

- Collaborated with product manager and designers to revamp a legal dashboard app, resulting in a beta MVP release with a better user experience.

- Collaborated with the backend engineers to create a platform for customers to access recent judgments, up-to-date laws, precedents, and other reference tools.

EDUCATION

University of Benin	**December 2018.**

OD-Doctor of Optometry

PROJECT EXPERIENCE

Kuja Express   City, State

A mobile application that enables wholesalers to have a line of sight of their sales to retailers. It enables wholesalers to manage their inventory, customers, and sales including the ability to accept new customers.

- Tools: React Native, Expo, Typescript, React Query.
- Link: https://play.google.com/store/apps/details?id=com.beertech.kujaexpress&pcampai gnid=web_share

Optimus Retail Internet Bank   City, State

A web platform for online banking platform owned by Optimus Bank which allows customers to perform banking transactions and pay bills.

- Tools: ReactJS, Typescript, styled-components, Redux, Redux toolkit query.
- Link: https://ibank.optimusbank.com/

Statisense   City, State

A web platform that simplifies business datasets into conversations, reports, and infographics with data models.

- Tools: ReactJS, NextJS, Typescript, Tailwind, React query.
- Link: https://www.statisense.co/

SKILLS

ReactJS, NextJs, React Native, Typescript, CI/CD, TDD, Jest, Git, REST API, GraphQL, WebSockets, GitHub Actions, CSS pre-processors (SASS, LESS).
